*“I began working with Patricia in 1/2021, as I was envisioning massive changes in my work/ life. Ten months later I am amazed at how much of my vision has manifested. Patricia is consistent, supportive and listens deeply. She has a talent for pushing just enough to show my limiting thinking and opening new doors to look beyond. The PBC was a supportive environment where I meet other entrepreneurs committed to growth. I found this community inspiring & practically helpful in overcoming obstacles. I am so grateful to Patricia and my colleagues in the PBC for their support on my journey this past year.” Vincenza Kamendo*
